## EXPERIENCES

### Sr. Frontend Engineer - Full time (Remotly)

Tatweer Educational Technologies - Saudi Arabia - Since October 2022

- Part of my work with Link Development as they outsourced me to TETCO to participate in their projects.
- Understand business needs, processes, and engineering requirements/restrictions
- Help in creating high-quality user manuals whenever needed that communicate clearly and translate business processes into user-friendly flows.
- work closely with the UX team to implement and develop web and mobile applications
- Help and support peers and other teams through reviewing their code and training them on job basics if needed
- Led product ownership duties and quality control processes, driving feature prioritization, refining user stories, and ensuring consistent delivery of high-quality releases
- [scholarship.moc.gov.sa](https://scholarship.moc.gov.sa) — Collaborated as Product Owner & QC, ensuring platform reliability, overseeing sprint deliverables, and maintaining alignment with stakeholder expectations.

### Sr. Frontend Engineer - Full time

Link Development - July 2022 to March 2023

- Write clean, efficient, and maintainable HTML, CSS, and TypeScript code
- Collaborate with designers and back-end developers to implement user interface elements and functionalities based on UI/UX designs and technical specifications.
- Assign tasks to the FE team members
- putting the frontend structure to the project depend on our need to make sure of its scalability and choosing the needed third parties or packages
- code reviewing for FE team members
- Participating with Testing Team to test features even if it's not Frontend Scope
- mentor junior or Mid-level Frontend developer to boost their skills
- Ensure cross-browser and cross-platform compatibility of web applications

### Frontend Engineer (Mid Level) - Full time

E-Rak Electronic Government Authority - May 2021 to June 2022

- Working on our custom platform for Both citizens and government employees.
- Using modern web technologies and JS frameworks to create a web application that fit our needs
- keeping on eyes on the design & user experience to make a joyful experience for our Users
- Participate in UI/UX design discussions to do the best for our users

### Frontend Engineer (Mid Level) - Remotly part time

Ais Works (sharjah) - May 2021 to May 2022

- Implement the functionality of web designs without compromising visual/artistic aspects of the design
- Investigating bugs and issues on existing sites/features and introducing new solutions
- Following best practices and guidelines for delivering client-side code
- Take part in complex features implementation
- [mes.dma.shj.ae](https://mes.dma.shj.ae) — Worked as Frontend Engineer, and aligned frontend deliverables with business & quality control requirements

### Frontend Engineer

ZUMAR - Dubai (remotely) - November 2020 to February 2021

- working on our custom e-commerce platform using the modern technologies that fit our needs
- Using modern web technologies and JS frameworks like React to create a web application
- keeping on eyes on the design & user experience to make a joyful experience for our customers.
- Work within Agile methodologies & tools
